

Lateral Plungers · with thread, without seal

22150.0316

Product Description

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

Material

Body

- Steel, zinc-plated by galvanization

Spring

- Steel, zinc-plated by galvanization

Pin

- Steel, case-hardened, zinc-plated by galvanization

Assembly

Lateral plungers are installed by screwing in by means of a mounting tool.

Formula for calculating the center distance for the mounting hole:

$$l_0 = z/2 + w + x,$$

l_0 = center distance,

y = workpiece height,

w = workpiece length,

x = coordinate dimension,

s = stroke,

z = stop diameter

Calculation dimension x :

y greater than or equal to $l_2 - d_2/2$,

then $x = d_2/2 - s$

or

y smaller than $l_2 - d_2/2$,

then $x = d_2/2 - s - [(l_2 - d_2/2 - y) * 0,123]$

Characteristic

Version heavy spring load = spring from steel, zinc-plated by galvanization

Drawing

Order information

d ₁	l ₁ -2	Dimensions		Stroke s	WS	x ¹⁾	max. [°C]	[g]	Art. No.
		Spring load F max. ²⁾ ~ [N]	d ₂ l ₂ [mm]

Application example

Compliance

RoHS compliant

Contains lead - compliant according to exceptions 6a / 6b / 6c.

Contains SVHC substances >0,1% w/w

Contains lead - SVHC list [REACH] as of 23.01.2024.

Contains Proposition 65 substances

Lead can cause cancer and reproductive harm from exposure
