

## Product Description

To be used for positioning, indexing, locking, latching as well as for other similar pressure applications
Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

Material
Pin

- Stainless Steel 1.4305 (ASTM-A-582) nitrided

Body

- Stainless steel 1.4305 (ASTM-A-582)

## Spring

- Stainless steel

Characteristic
Heavy spring load: marked with two lines

Heavy spring load

## More information

Notes
Special types on request.
Spring plungers are specially tested for spring range and forces.

- This product is manufactured in INCH dimensions.

## References

A conversion table can be found in the technical data following these product information pages.
Thread lock: polyamide spot coating (for details please refer to the technical appendix).
Further products

- Spring Plungers, with pin and internal hexagon
