Hinges • Zinc die-cast, with spring return

EH 25163.

Product Description

Hinges from zinc die-cast with spring return allow doors to be automatically opened or closed. The torque of the reset depends on the opening angle of the hinge (refer to the drawing). Endurance tests have shown that the torque of the reset does not change even after 100,000 cycles.

These hinges from zinc die-cast are characterised by their simple and timeless design.

Material

Body

- · Zinc die-cast, plastic coated, silver, similar to RAL 9006, matt structure
- · Zinc die-cast, plastic coated, black, similar to RAL 9005, matt structure

Spring

· Spring steel wire

Covering

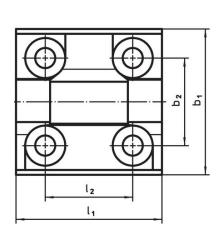

Thermoplastic POM
